

I'm not robot!

COUNT AND COLOR COUNT AND DRAW Generic theme activity worksheet - Draw the correct number of items CONNECT THE DOTS - COUNTING MATCHING PATTERN RECOGNITION WHAT'S NEXT The 10's chart activities in the Grade One (Level One) Dynamic worksheets would be appropriate for many kindergarten children. Other Links: Although the activities are geared more to the preschool to kindergarten age group, adding one or two less challenging activities when learning the numbers can be a welcome break for the kids and can be given as a bonus activity for those who finish their work early. Please share our free worksheets. Thank you! Kindergarten worksheets are a wonderful learning tool for educators and students to use. This is why we have and will continue to create hundreds of free kindergarten worksheets that are designed to fit into a standard kindergarten curriculum. The main focus of our kindergarten website is to provide free educational resources. In these difficult economic times, we believe kindergarten teachers and parents can benefit greatly from our printable kindergarten worksheets. We have conducted extensive research on the types of kindergarten worksheets teachers and parents use the most. It is not a perfect science and we know we can always be doing a better job to serve you. If you have suggestions on what kind of kindergarten worksheets we should create or what categories we should expand on, we would love to hear from you. Is there a kindergarten worksheet that you just love and would like to see more of? Please let us know using our contact webpage, via email, on Facebook, or through Twitter. Thank you for your time in advance! Our entire collection of kindergarten worksheets have been made into a free web app powered by HTML5. HTML5 does not require the Flash plug-in that most educational websites use to provide interactive content. This means that our kindergarten worksheets will work almost anywhere. Kindergartners can now complete the educational worksheets on the iPad and other forward-thinking devices. The free kindergarten web app we have developed makes use of the iPad's multi-touch feature. Kids can use their fingers to draw, write, and solve problems directly on the free kindergarten worksheets. Teachers and parents can then print the completed kindergarten worksheet. Our free online kindergarten app also works on desktop and laptop computers running modern web browsers like Safari, Chrome, Firefox, and Internet Explorer 9+. According to the Pennsylvania Department of Education, having the firm foundation of early childhood education will ensure children's success in life. It is also imperative that students develop critical thinking and problem solving skills during their first year in school as well as establish an appreciation of who they are in a social society. Teachers are able to implement these worksheets in a variety of early childhood lesson plans. Even though our "kindergarten worksheets" are designed for kindergarten students, they are also useful for children that are in preschool or first grade. These diverse kindergarten worksheets will create a fun learning environment that ultimately assist in cultivating valuable critical thinking, cultural, and linguistic skills. Our fun kindergarten worksheets are broken down into four main areas. They are math, English, general learning, and holiday worksheets. These categories are then divided into different subjects so that parents and teachers can easily find the free printable kindergarten worksheets they are looking for. The kindergarten math worksheets section includes addition, subtraction, counting, fractions, place value, graphs, measurements, pattern words, and numbers. The Kindergarten English worksheets section offers reading, alphabet, writing, phonics, vocabulary, sight words, opposites, rhyming words, and spelling. The general learning section provides science, Spanish, social studies, dinosaurs, health, zoo, foreign languages, butterflies, and kindergarten coloring activities. The last section is our kindergarten holiday worksheets. This includes Easter, Christmas, Thanksgiving, and Halloween. We also offer summer, winter, spring, and fall printable worksheets. All of the kindergarten worksheets on our website can be printed out, downloaded for later use, or used directly online. Anyway you choose to use our free kindergarten worksheets, we hope they help enhance the students' appreciation for education. Learn the Coins: The PennyLearn the Coins: The PennyOn this penny printable, kids practice tracing letters, counting coins, and they even get to do some fun coloring, too. Skip to main content XLog In Welcome to our Kindergarten Math Worksheets hub page. In our Kindergarten area, you will find a wide range of free Kindergarten Math Activities and worksheets for your child to enjoy. Take a look at our addition coloring pages, or maybe some of our shape worksheets. Perhaps you would prefer our kindergarten counting games, or our counting worksheets? This page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. Here are the standards for the end of the year for Kindergarten. Count to 100 by ones and tens. Count forwards in ones from different numbers. Write numbers 0 to 20. Count up to 10 objects arranged in a random arrangement. Count up to 20 objects arranged in lines or arrays. Compare and objects up to 10 and say whether one set is more, less or equal to another set. Compose and decompose numbers from 11 to 19 into a ten and ones Skip count by 2s, 5s and 10s. Add and subtract within 10 Solve addition and subtraction word problems within 10 Decompose numbers less than 10 into pairs of numbers, e.g. 7=5+2 or 3+4 or 1+6. ... Find number bonds to 10. Know fluently addition and subtraction facts within 5 Compare objects in terms of measurements like length and weight, which is longer/shorter, heavier/lighter. Classify and sort objects into given categories. Count the number of objects that have a certain property. Know and identify coins: penny, nickel, dime, quarter Shape list: 2D shapes - squares, rectangles, circles, triangles, hexagons Shape list: 3D shapes - cubes, cones, cylinders, spheres Identify, describe and classify shapes. Identify shapes in different orientations and sizes. Identify 2D and 3D shapes. Compare simple properties of 2D and 3D shapes such as number of sides or corners. Compose simple shapes into larger shapes, e.g. compose two right triangles to make a rectangle. On this page you will find link to our range of math worksheets for Kindergarten. We have a range of different printable number charts up to 30. Some of the charts are pre-filled to help identify and find numbers. Some of the chart come as missing number worksheets. These sheets will help your child learn to write and form the numbers from 1 to 20 correctly. There is also a counting challenge on each sheet which involve shading the correct number of objects. The sheets here are counting sheets which involve counting animals and vehicles up to 10. There is a selection of reference sheets for using in the classroom, or sending home to parents. There are also some color-in sheets for counting and coloring up to 10 animals or vehicles. These sheets are a perfect way to start kindergarten kids off with their learning. Numbers to 10 Counting and Coloring After your child has learnt to count objects up to 10 and write their numbers, they are ready to start counting one more and one less. Most of the sheets focus on counting up to 10. There are also some worksheets that go up to 25. Counting One More Worksheets Counting One Less Worksheets This page is all about ordinal numbers: first, second, third, etc. There are a range of worksheets to help your child understanding how to use ordinal numbers. Ordinal Number Worksheets These worksheets will help your child to compare and start to order different things. Using these sheets will help your child to: understand the concept of most, least, biggest, smallest; count up to 10 objects; compare a range of different objects; compare numbers up to 20. Comparing size and numbers up to 6 Comparing Numbers Worksheets to 10 These sheets will help your child learn to count on and back in ones, and put numbers up to 25 in the correct place in their sequence. Using these sheets will help you child to: recognise number, letter and picture patterns; count on and back in ones to 25; sequence numbers to 25. The following worksheets involve different Kindergarten Math activities such as counting, coloring and learning to write numbers. Using these sheets will help your child to: read and write numbers up to 25; compare numbers to 10. Kindergarten Number Worksheets Top of Page Here you will find a range of Kindergarten Addition and Subtraction Worksheets. The following worksheets involve adding and subtracting to 10. Addition Math Worksheets to 10 Top of Page These kindergarten math worksheets explore squares, rectangles, circles and triangles, and also matching identical shapes. There are also some shape tracing worksheets to help your child learn to name 2d shapes and practice tracing them to improved their fine motor skills. Free Shape Worksheets Kindergarten These resources will help your child to learn their 2D shapes, and also learn some of the properties they have. Using these kindergarten math worksheets will help your child to: learn the common 2D shapes - circle, square, rectangle, triangle; recognise that a square is also a member of the rectangle family; recognise trapezoids and parallelograms; recognise members of the quadrilateral family; recognise shapes in different orientations and sizes. Shapes Clipart for Kindergarten Top of Page The kindergarten math worksheets on this webpage are all about measuring length in inches and centimeters. There are two different easy activities. The first activity is to write down the number on the ruler pointed to by an arrow. The second activity involves writing down the correct measurement for the length of a line - a ruler has been correctly positioned underneath. Measuring Length Worksheets for Kindergarten These kindergarten math worksheets are all about recognising and counting coins: pennies, nickels, dimes and quarters. The sheets involve recognising both faces of each coin. Kindergarten Money Worksheets Top of Page Here you will find a range of free printable Kindergarten Math games to help your child with learning to count. Kindergarten Counting Games Here you will find a range of Kindergarten Dot-to-Dot Worksheets. Using these sheets will help your child to: read numbers up to 25; count up to 25. The activities include dot-to-dot and coloring pages. The activities have been designed to keep your child motivated and engaged whilst learning their Math facts at the same time. Using these sheets will help your child to: count up to 25; understand place value to 25. Kindergarten Math Activities Top of Page The resources on this page have all been specially designed for Kindergarten kids to use as visual aids or table top support pages. There are a wide variety of printables including number lines, number squares and math mats. Kindergarten Math Printables Number line 0 to 10 printables We have started creating sets of seasonal worksheets for each grade. These sheets are great for linking to a particular topic, or doing some math that relates to the time of year. For those of you who have found yourselves unexpectedly at home with the kids and need some emergency activities, we have developed some Math Grab Packs. Each grab pack is a collection of 10 worksheets covering a range of math topics (plus a game in some of the packs). They are completely FREE - take a look! Kindergarten Math Grab Packs Is your child stuck with a particular area or concept and you are looking for help? Do you want to support your child with their math work and not know where to start? Come to our friendly kindergarten math help page! Kindergarten Math Help Page How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly!
